

# Agilent Medalist 3070

## Short Term Rental Program

### Flexible Asset Management

*Test capacity spikes on short notice. Seasonal peak demands. Uncertainty around new product introductions.*

*The need for uncompromising test solutions.*

At Agilent, we understand the test managers' challenges, and now offer a short term rental program that will enable manufacturers to maximize the benefits of the industry-leading Agilent Medalist 3070 In-Circuit Tester.

Partnering with ElectroRent, a leader in the field of test instrument rentals, Agilent is able to offer you 3070 rental systems that are fully supported by our experienced team of support engineers worldwide.

The Agilent Medalist 3070 Short Term Rental Program is an innovative and flexible asset management business model which offers you the following benefits:

- Optimized system configurations (hardware & software) to meet your board test needs - all at no extra cost.

- Uncompromising comprehensive global warranty and support by Agilent's service and support engineers at a moment's notice.
- All systems are updated regularly with up-to-date software releases, providing you access to our latest innovations like the Medalist iVTEP vectorless test solution.
- Rental buyout options with attractive rental payment accrual schedules, plus transfer of any remaining warranty.
- Best of all, it's available when you need it, with priority shipment that will ensure your system arrives punctually.

## Succeed With Agilent

With the Agilent Medalist 3070 Short Term Rental Program, you are assured of our transparent cost structure and NO LONGER need to face the risk of hidden costs from non-Agilent programs, such as:

- Breakdown of poorly maintained 3070 equipment that is not warranted or supported.
- Delays in delivery of equipment.
- Receiving equipment with the wrong or incompatible configuration and potential intellectual property (IP) infringement from unlicensed software.

At Agilent, we believe in helping you succeed. Hesitate no further. Contact your local Agilent representative today to find out more about our innovative and cost-efficient Short Term Rental Program.

## Remove all doubt

Our repair and calibration services will get your equipment back to you, performing like new, when promised. You will get full value out of your Agilent equipment throughout its lifetime. Your equipment will be serviced by Agilent-trained technicians using the latest factory calibration procedures, automated repair diagnostics and genuine parts. You will always have the utmost confidence in your measurements.

Agilent offers a wide range of additional expert test and measurement services for your equipment, including initial start-up assistance onsite education and training, as well as design, system integration, and project management.
